

# B-ACCURATE WHITE PAPER

## Testing glue seams on mailing boxes

June 21, 2011

### The Challenge

Customer needed to test glue seams on mailing boxes

### The Solution

Four mailing boxes were sent. They were cut into wide sample strips, 50 sample strips were tested. From the data obtained through this testing, system recommendations are able to be made. Pictures were taken of the boxes prior to and after cutting them up, as well as, a couple of them being tested.

FORCE MEASUREMENT & MATERIAL TESTING
